Experience

Money Trees

Lead React Native Developer

Baguio, PH

October 2024 – Present

- Developed a **multi-platform digital library system** for a company as part of my university's internship requirement, using Tamagui, Solito, Next.js, and Expo in a **monorepo architecture**. I was later hired as the company's contract-based **Lead React Native Developer**. I am open to full-time opportunities.

Para Po!

Chief Technology Officer / Lead Android Developer

Baguio, PH

December 2023 – September 2024

- Led the development of a navigation app as the **CTO** for a startup in my university's incubator program. The app provides information, such as **terminals, fares, and routes, for public utility vehicles** in Baguio City, Philippines.
- Implemented navigation and search features using **Mapbox APIs and SDKs, handling over 100+ terminals and routes of GeoJSON data**, and generating clean paths with the **Mapbox Map Matching API** while utilizing the **Mapbox Search SDK** for the **geocoding and reverse geocoding** of the searched places.
- Optimized the display of jeepney data cards with **RecyclerView**, utilized **Firebase** for backend and authentication, and implemented a **transformation matrix** to save and update **Sticker View** profiles.

Poblacion.ph

Software Engineer Intern

Makati, PH

September 2021 – May 2022

- Worked as an intern for a startup e-commerce company that utilized **CS-Cart** for its development.
- Implemented the **call-to-action (CTA)** for the online marketplace and utilized the **CS-Cart Multi-Vendor React Native app**, successfully launching the marketplace on the app stores.

Education

University of the Cordilleras

B.S. Computer Science

Baguio, PH

August 2022 – Current

Projects

Helpmate: BLE Multi-Peer Communication App

Thesis Project
