Experience

Asset Transport Group

QA & Junior Developer

Duluth, GA, US

August 2025 – March 2026

- Performed **quality assurance** for the mobile and web applications of a **Transport Management System (TMS)**, maintaining code quality, fixing bugs, and assisting the development team in implementing new features using **Flutter** and **PHP MySQL** and integrating **Motive** and **Samsara** APIs for **fleet monitoring**.

Money Trees

Lead React Native Developer

Baguio, PH

October 2024 – July 2025

- Developed a **multi-platform digital library system** using **Tamagui**, **Next.js**, and **Expo** in a **monorepo architecture**, integrating **backend APIs** for the **eBooks Library** and related screens on both web and mobile, while utilizing **Mapbox** for the Bible Atlas map.
- Integrated **Stripe payments** and deployed the app on both web and mobile using **Vercel** and **Expo EAS**.

Para Po!

CTO & Android Developer

Baguio, PH

December 2023 – September 2024

- Led the development of a **navigation app** as the **CTO** and **sole developer** for a startup in my university's incubator program. The app provides information, such as **terminals**, **fares**, and **routes**, for **public utility vehicles** in **Baguio City, Philippines**.
- Implemented **navigation** and **search features** using **Mapbox APIs** and **SDKs**, handling over **100+ terminals** and routes of **GeoJSON data**, and **generating clean paths** with the **Mapbox Map Matching API** while utilizing the **Mapbox Search SDK** for the **geocoding** and **reverse geocoding** of the searched places.
- Utilized **Firebase** for **backend** and **authentication**, and implemented a **transformation matrix** to save and update **Sticker View** profiles.

Poblacion.ph

Software Engineer Intern

Makati, PH

September 2021 – May 2022

- Worked as an intern for a **startup e-commerce company** that utilized **CS-Cart** for its development.
- Implemented the **call-to-action (CTA)** for the **online marketplace** and utilized the **CS-Cart Multi-Vendor React Native app** to **successfully launch** the marketplace on the **app stores**.

Education

University of the Cordilleras

B.S. Computer Science

Baguio, PH

S.Y. 2025

- Helpmate: BLE Multi-Peer Communication App**

Thesis Project

Baguio, PH

December 2023

A mobile app designed to facilitate communication using a BLE mesh network.
